

## Desdemona Kitten Rules

1. Follow the big cat around the house; practice sneaking around behind her.
2. Pounce on the big cat when she's sleeping.
3. Don't get on the big cat's special chair.
4. Hide under the blankies when the big cat hisses.
5. Try and be as cute as you can and the big cat will let you come closer.
6. When Mommy is on the computer, sleep on her shoulder.
7. If you don't want to sleep high, aim for the chest; be sure that you slip a bit so that she'll have to hold you steady with one hand while she tries to type.
8. Mommy and Daddy's eyeglasses are slickery, and feel good to lick and kiss, so be sure you do that many times during the day.
9. At dinnertime when Mommy ignores you, go to Daddy; he's a pushover.
10. If you get lost and forget which way Mommy went, just MEOW and she'll come running.
11. Refrigerators can be very cold; don't go inside them.
12. Chase your own tail....that big cat won't chase mine yet so I have to do it myself.
13. After the vet clips your nails, be very careful what you jump onto, because you might slide off.
14. Daddies and Mommies need lots of kisses, especially when they are sleeping - it's fun to wake them up with lots of kisses.
